Constructed during the winter of 2012 - 2013 by Wooden Boat Museum STEWART STURGE "As I was told a rodney is 14 to 16 feet. Once you go over that, 16 to 18 or 19 feet, it would be a punt. A punt is a little bit bigger than a rodney." Lines lifted in Glovertown during the summer of 2012 HORIZONTAL REFERENCE VI V IV III II I I II III IV V VI BTK FRAMES 9- 18 FRAMES 1 - 9 WL 18 WL 14 WL 10 WL 6 HORIZONTAL REFERENCE TRANSVERSE STATIONS AT 9 INCH SPACING 17 18 13 16 15 14 12 11 10 9 7 3 2 CENTRELINE ALL LINES DRAWN TO THE OUTSIDE OF PLANKING
